

DARE TO COMPARE

Not all insect misting systems are the same. Before you buy, make sure you evaluate the equipment and the company installing it. We think you will agree that a CoastalMister installed by a licensed and trained insect misting company is the right choice for you and your family.

CoastalMister

The Competition

✓ Multiple models - Choose the one right for you	✗ Most companies only offer one type of system
✓ U. N. Rated drum - Approved for chemical shipment	✗ Others have drums not approved for chemicals
✓ Raised mounting bracket - Protects controller	✗ Timers and motors mounted to drum lid
✓ Pressure Gauge - Ensures accurate droplet size	✗ Others do not use gauges/pump manifolds to save money
✓ Waterproof Seamless cover - No leaks!	✗ Cheap spare tire covers have leaky seams
✓ 20 Year battery back-up - No power problems	✗ Very few use battery back-ups or use
✓ Remote Control operation On/Off & extra mist cycle	✗ Other companies make you pay extra for remotes
✓ Standard size or Slimline nozzle choices	✗ You're able to pick the nozzles right for your yard
✓ 2 sizes of copper risers - Not plastic	✗ Copper risers last longer and look better
✓ Unlabeled nylon tubing – in 5 different colors	✗ Others use cheaper polyethylene tubing that sags
✓ Nylon clamps - Not staples	✗ Others use staples that rust and break
✓ Installation by trained Coastal Mosquito technicians	✗ Many companies use unskilled, untrained labor
✓ Lifetime Warranty	✗ Most other companies only offer 1 year
